Warning triangle

Stay safe when stranded. This high-visibility warning triangle makes sure approaching motorists see you in time. Lightweight, stable and foldable, it is also compliant with the latest ECE-R27 standard, a legal requirement in most European countries.
99942ADE00

Safety vest

Maximum visibility for maximum safety, all day and night. This neon vest with reflective strips lets other motorists see you from a distance if you have to leave your KONA. It complies with EN 20471, a legal requirement in most European countries. One size fits all.
99941ADE00 (one vest)

Safety bag

Enjoy the added peace of mind of having this safety bag on board. It contains two safety vests, a warning triangle and a first aid kit compliant with the current DIN 13164:2014 standard, legally required in numerous European countries.
99940ADE00

Touch-up paints

Keep your paintwork in top condition with genuine touch-up paints for repairing scratches and stone chips, and protecting from corrosion – quickly, simply and effectively. Developed to precisely match the colour of your KONA. Please consult your dealer for the correct colour code.

Ice scraper with glove

Convenience without the cold chill. Keep your hand dry and warm while scraping snow and ice from your windscreen.

LP950APE01H

Winter car care kit

This kit contains a bottle of concentrated winter screen wash to ensure that your wipers run smoothly over the windscreen. Plus a windscreen de-icer pump spray that helps to clear frozen windows and prevent re-icing. An ice scraper speeds up the removal of ice, and a sponge wipes away condensation from the windows.

LP973APE109H

Summer car care kit

This kit contains a bottle of concentrated summer screen wash to keep your view of the road crystal-clear and smear-free. The insect remover spray removes stubborn insect remains from the windscreen and headlights. Formulated especially for alloy wheels, the rim cleaner spray simplifies the removal of brake dust and grime. The extra sponge helps to wipe away tough blemishes from glass surfaces.

You power it.

Your KONA Electric means that enjoying all the style, versatility and fun of a compact SUV gets a new dimension: electric driving with no compromises. Choosing Genuine Accessories will maximise your enjoyment and flexibility.

You connect it.

Charging your KONA Electric could not be easier, smarter and faster. The high-quality Charging cable, Mode 3 is designed and engineered to function faultlessly and to withstand rough handling and extreme climatic conditions.

Charging cable, Mode 3

Charging cable, Mode 3

To maximise its full capabilities the Charging cable, Mode 3 is equipped with Type 2 plugs at both ends. The electrical contacts are made from solid metal, and the easy-to-use plug handles are designed to safely and slowly dissipate any heat build-up during charging. High-grade materials make this charging cable extremely resistant to severe twisting or bending. And extensive weatherproofing excludes the possibility of corrosion. Secure automatic locking to both the car and the charging point is provided by the Type 2 plugs. The Charging cable, Mode 3 can be used for the day-to-day charging at public and domestic charging points that provide Type 2 sockets with up to 22 kW.

You charge it.

For faster and more efficient charging, also at public charging points, the Mode 3 cable radically reduces the time required to replenish the car's batteries.

Mode 3

Charging Mode 3 connects the electric vehicle with a dedicated electrical circuit via any AC charging point equipped with a Type 2 socket. Active communication between the charging point and the car is established to monitor charging point capacity, safety earthing integrity and the selection of the charging rate. It allows the car to turn off the power when its battery is fully charged. The improved communication and the higher charging current enable a faster and safer charging performance.

Type-2 plug

Now adopted as the European standard in connection with electric vehicle charging, the Type 2 plug incorporates a unique, single- or three-phase pin arrangement that facilitates three different functions: power transmission, safety earthing and system communication. The majority of public charging points are equipped with Type 2 power sockets and combined with the single-phase Charging cable, Mode 3 provides the maximal possible charging speed for the KONA Electric.
